

Nursery Class Homework Grid- Spring Term 1 2022

Dear Parents, Nursery Class is a crucial year for your child's learning of basic skills in Reading, Writing and Maths and in their understanding of themselves in their world. The following Home Learning tasks will support the work your child will be doing in Literacy and Maths this term, as well as some of the RE and Topic work that we will cover. Please complete one homework task a week, in any order, and record evidence of this in your child's homework book in the form of work, photographs and/ or comments. Your comments may include what your child has said during the activity. It would be very helpful if you could provide the date that each activity was completed.

Don't forget that you can share any photo and video observations of your child at home with us through the Evidence Me App and you can also share any special achievements with us by filling out a WOW card. We hope that you and your child have fun completing these activities together. Thank you for supporting your child's education.

Homework Number	Instructions	Date completed	Home Comments	Teachers Initials
Every Week	Please practice the nursery rhyme of the week with your child. Life Skills - Please encourage your child to get dressed independently.			
1	Go on a winter walk with your grown up and collect different things you find on your walk. E.g. leaves, twigs etc. You can talk about the changes you see during winter.			
2	Can you create a picture with the materials you collected on your Winter walk?			

3	Can you learn your home address and practice what you would say if you were in an emergency?			
4	Create your own emergency vehicle. Think about its features – sirens, hosepipes and ladders. Remember the bright colours too! You could make your vehicle out of old boxes, bottle tops and cardboard tubes.			
5	Create your own 'Thank you' card to send to someone that has helped you. You could draw, paint or collage to make your picture. Practice writing your name inside too.			
6	At a sink or in the bath, play with a selection of different sized containers and cup. Can you fill and empty the container? Can you show a container full, nearly full, half full, nearly empty and empty?			
7	Draw a picture of someone that has helped you. Think about how they helped you and how you can help someone in the future.			
Other	Continue to practice putting on your coat independently and zipping it up.
