

Week Commencing - 30th March 2020

Hello to all you lovely Year 2 children,

We hope that you had a good first week at home and started to do of the work in your packs , keep this up! We will add some new ideas for you each week.

ReAD

Here are just some reminders of things to try and do each day . Try and do a little bit of reading every day.

Practice your mental maths everyday - you can use timetable rockstars and there are lots of good games on www.topmarks.co.uk . Keep practicing telling the time.

Do some daily exercise - Joe Wicks is doing an online daily PE lesson at 9.00am each morning.

Go outside and get some fresh air.

Some other ideas for things you could try this week are:

Science - How many different plants can you see? Can you draw them? Can you name them? Can you look closely at one plant and draw and label the different parts?

RE - Next Sunday (5th April) is Palm Sunday - Read the story with your family.

Art - Create a rainbow - What are the most interesting materials you could use to make your rainbow from? Take a photograph of what you create- we would love to see these!

The link below has lots of games, activities, videos etc to help with your work:

Keep up the good work, look after yourselves and your families.

We miss you all!

Mrs Walklett and Mrs Clarkson
