

Week Commencing: 20th April 2019

Hello Year 6,

We hope you had a nice Easter break spending time with your families and staying safe and healthy. Firstly, we have some exciting news to share with you! This week, we will be giving each and every one of you a phone call to see how you are getting on. Please don't be nervous about this – we're really looking forward to talking to you! We won't be quizzing you on the work you have completed so far, but as you know, you should have completed at least some of the tasks over the past four weeks so we will be asking which tasks you enjoyed the most and any that you might have found challenging. It's also your opportunity to ask us any questions too. Most importantly though, we want to hear all about what you have been up to with your families thus far.

Our letter is a little different this week as this Monday marks the start of a new school term. Take a look below at the different activities which we want you to complete this week. Don't forget that there are lots of other activities and learning opportunities for you to check out on our Year 6 page too!

<https://sites.google.com/view/year-6-home-learningstjoca/home>

English

Have a watch of this short animated film and try writing a story based on these events from the perspective of either the older lady or the young man.

Remember to think carefully about how we make our writing Year 6 National standard and interesting for our readers.

Try adding a chapter per day to your story and send us the finished pieces of writing to stjoseph@sjnewman.co.uk - we'd love to read your stories!

Maths

Lesson 1 - Vertically opposite angles

This week's maths sessions will guide you through learning about angles in a triangle. Follow this link:

<https://whiterosemaths.com/homelearning/year-6/>

Complete one of the lessons under the tab which says 'Summer Term-Week 1' per day.

RE

Our new virtues for this half-term are Eloquent and Truthful.

Remember the grid of virtues on the first page of your RE books?

Design the two boxes you would have done for these virtues – they don't have to be small however, make them lovely and big!

Remember to think about how you can represent the virtues in pictures too.

Science

Have you written your biography, or created your poster about the life of Linnaeus? If not, head to the science tab on our page for instructions on to complete this. <https://sites.google.com/view/year-6-home-learningstjoca/y6-science>

If you have already completed this task, try one of the STEAM activities on the Creative Curriculum tab of our website. <https://sites.google.com/view/year-6-home-learningstjoca/y6-creative-curriculum>

Creative Curriculum

Take a look at the Creative Curriculum page on our website. This half-term, we are focusing on Decades of the 20th Century. We've got some really fun activities for you to try out including learning different dances from each decade and even trying out some tie dying! Take a look on this page for more information. <https://sites.google.com/view/year-6-home-learningstjoca/y6-creative-curriculum>

PE

ASM are posting challenges on their Facebook page from the different coaches regularly. Get active and give these a go. There are lots of other ways to get active listed on the PE page of our website. <https://sites.google.com/view/year-6-home-learningstjoca/y6-pe>

As always, we miss you all lots and can't wait to speak to you soon!

Stay safe,

Mrs Cox ☺ and Miss McGough ☺
