

Hello children,

20.4.20

How is everyone? I am really looking forward to talking to you all in person this week. Listen out for my phone call. I really want to hear all about everything you have been doing since I last saw you all.

This week on the home learning site, I have uploaded lots more work for you to choose from.

Maths – please continue to work through the White Rose Maths lessons, let's look at week 2 this week.

English – please choose another amazing picture from the Pobble.com site and write another fabulous story – can you write a different type of story than last week? There is a reading comprehension all about rivers too.

Science – can you make some goooey slime this week? I would love to see some pictures of you making and experimenting with your slime. You can post them on Twitter or Facebook, or email them to the school.

R.E. – Can you make a triptych piece of art this week? Head on over to the home learning site to learn all about this.

Geography – this week is all about the water cycle – can you make a water wheel to explain how the water cycle works?

I hope you have fun with these activities. Remember, you can email any questions or queries to me or ask me in person when I call.

Speak to you all soon,

Mrs Roberts
