

Monday 16th June 2020

Hello Y4,

I hope that everyone is well. I hope you are enjoying your home learning challenges each week. If you have any ideas for future weeks then please email them to the school and they will pass on your ideas to me.

This week...

Maths – we are looking at decimals. Can you create, order and round decimals?

English – we have an inventions theme to the English this week with a fabulous video called “Wing it!”. There are lots of different activities for you to try out after you have watched it.

Creative Curriculum – is linked to the English video. Can you invent your own flying machine?

Science – carrying on with our topic of Animals Including Humans we are looking at teeth. What can you find out?

RE – There are Catholic people all over the world, but are all their traditions and festivals the same? What can you find out?

Have fun with your learning and stay safe! Don't forget you can send anything you create for me to see if you wish, by using the school email address.

Until next week.....

Mrs Roberts
