

Monday 13th July 2020,

Hello Y4,

How did we get to the end of term already? Time really does fly! I thought I'd choose my favourite animal for the page border this week. I hope you have really enjoyed all the home learning tasks I have uploaded every week for you. This week, being as it is the last week, is all about fun!

The Maths activities are some colour by calculation activities and a mystery to solve!
The English activity is also a mystery. Use your spelling and grammar skills to solve the swimming baths mystery!

The Creative activity links to our last Teams session on Wednesday 15th July at 11am. What is your favourite Y4 memory? I look forward to hearing your stories on Wednesday.

It has been a real pleasure to teach all of you lovely Y4 children this year. I wish you all the very best for next year in Y5. Be good, and keep up the amazing work you have been doing! Keep smiling, be tenacious (you know that's my favourite word!) and keep demonstrating those virtues! I will miss you all dearly!

Mrs Roberts
